The case for the value of all trees and greenery in terms of improving air quality , providing aesthetic values that are good for our mental health etc. are well known and understood . Trees are living things , they need care and attention not killing .in addition the whole ambience of NW3 is created by its abundance of trees . Refuse this application and suggest creative and professional pruning .
2020/2457/T	[REDACTED]	10/06/2020 09:22:14	OBJ	These trees are in a conservation area. CONSERVATION. We must conserve our trees for our health and environment and not allow private citizens to chop them down mindlessly. Is this absolutely essential?
