5. Condition(s) - Removal/Variation

Please state why you wish the condition(s) to be removed or changed

Condition 4 required a method for protecting the trees on site to be agreed. Whilst tree protection measures were installed retrospectively and potential harm inadvertently caused to the trees has been mitigated we are not able to comply the the 'prior to commencement' element of the condition at this stage. Therefore we need to vary the condition to show that the retained trees have been protected and any possible damage caused inadvertently during the works has been mitigated but remove the aspect which requires the methodology to have been agreed prior to commencement.

If you wish the existing condition to be changed, please state how you wish the condition to be varied

Condition 4 to be varied from pre-commencement condition to a compliance condition such as "All trees on site shall be retained and protected in line with BS5838:2012 for the duration of construction works. All trees on the site, or parts of trees growing from adjoining sites, unless shown on the permitted drawings as being removed, shall be retained and protected from damage in accordance with the approved protection details."
