Hi Rav

Ironically I am not intending to put another tree in its place because I am not free to remove it when I choose. Needing permission from the Council to cut down my tree, on my land seems ridiculous to me and the consequence is that I won't be replacing it.

So could you please set up a notification and let me know in 6 weeks or so please.

Thanks, Sean

Hi Tom,

Please see the picture of the tree with no leaves, as you can see the tree behind has full foliage. There's no other picture I can really take that will prove it better than this. My best evidence, aside from this, is that Nick came out 18 months to two years or so ago and said he thought it was dying which I presume there is a record of.

Can you let me know if Camden will take it down, part of it hangs over the pavement and public highway and I'm not sure when I will be able to get someone to come and chop it due to COVID? That would be incredibly useful but at the most basic level I am aware that I need your permission to chop it down before moving ahead so I need to know that too?

Thanks, Sean

Hi Rav,

I dealt with Nick about a year ago and he was exceptionally helpful. I imagine it is COVID that has caused the problems in getting a response this time round.

The address is 73A Roderick Road, NW3 2NP, its a Gladitsia and it was in the rear garden. When Nick saw it 18 months ago I was told it was dying and to chop off a branch to see if it saved it which I did; however the leaves just got less and less till there virtually none last year. I left it till this summer to see if anything would grow, it may have been in shock after the branch being chopped off, but nothing has grown this summer. I am convinced it is dead, two tree surgeons I know have looked at it and think so too, Nick is / was aware that the tree was on its way out and would presumably confirm this.

If you agree would Camden cut it down ? I am not sure whether I can get anyone out during COVID to do this; although later in the summer I assume things will become more possible.

Best wishes, Sean

Hi

I have rung twice and emailed the tree planning section. I have spoken with someone who said someone else called Nick would ring back but there was no call. Given that it seems impossible to get a response or answer to confirm that I am allowed to cut my tree down I am notifying you of my intention to cut my tree down and will not be trying to make further contact unless you do,

Sean
