Subject: Objection to planning application 2020/1332/P att Jaspreet Chana

[EXTERNAL EMAIL] Beware – This email originated outside Camden Council and may be malicious Please take extra care with any links, attachments, requests to take action or for you to verify your password etc. Please note there have been reports of emails purporting to be about Covid 19 being used as cover for scams so extra vigilance is required.

Dear Jaspreet,

As the Managing Agent for Kings Gardens Freehold Ltd .NW6 4PU I have been instructed by the Directors to write to object on behalf of their share-holders to planning application 2020/1332/P

A number of resident shareholders have their children in the Montessori nursery and that re very concerned about the 5G exposure to children attending nearby nursery but also the negative impact this will have on the neighbourhood.

They objection on the following grounds:

- The NPPF advises that applications for telecommunications equipment should be supported by necessary evidence, including consultation with local schools or colleges alongside the submission of a self-certification statement to certify the cumulative exposure, to confirm that when operational, the installation would not exceed International Commission guidelines on non-ionising radiation. This has not been conducted.
- No risk assessment was conducted by Camden Council.
- An increase in exposure to radio waves when 5G is added to an existing network or in a new area is currently unclear.
- More than 230 scientists and doctors from 40 countries appealed to the World Health Organisation calling for a moratorium on 5G wireless technology and that the 5G wireless signal should be moved from a Group 2B Carcinogen to a Group 1, the same as asbestos and arsenic. See following link: <http://www.5gappeal.eu>
-
- Glastonbury council opposed 5G due to its unpredictable health effects. See link: <https://glastonbury.gov.uk/2019/06/19/town-council-challenges-5g/>
- Parliament Debate on health-related effects of electromagnetic fields and 5G (Tuesday 25 June 2019). See link: <https://youtu.be/bzUv1F2Zhl>

In the light of this the shareholders at Kings Gardens feel very strongly that this application should be refused.

Please can you confirm if you will accept this objection on behalf of the block or do you require individual objections to be lodged.

Kind regards

Kane
