

Conservation Area Advisory Committee

Advisory Committee	Camden Town
Application ref	2020/1788/P
Address	Greater London House Hampstead Road London NW1 7QY
Planning Officer	Tony Young
Comments by	05 Jul 2020
Proposal	Upgrade of existing telecommunications equipment at roof level to facilitate 5G coverage, involving the replacement of 6 x antennas with 6 x antennas, installation of 2 x 600mm dishes, 6 x mast head amplifiers (MHA), 8 x break-out boxes (BOB), 6 x active routers, 27 x remote radio units (RRU), 2 x free standing frames, and ancillary development.
Objection	Yes
Observations	<p>We strongly object to this proposed application. The easternmost group of antennas are proposed for the North East corner on what is the principal front facade of this very fine Art Deco building and will be highly visible from Cobden Junction within the Conservation Area. The highly prominent tall antennas will disfigure the strong horizontal line formed by the parapet either side of the Egyptian styled covered cornice and will negatively impact on its symmetrical design. The additional taller and more prominent equipment to the rear of the building facing Mornington Crescent and the third set of antennas closer to the front facade but set on the higher rear roof extension will further disfigure the building and will be very apparent in long views of the Listed Crescent and smaller Listed houses on Arlington Road. The proposed installations, being set right at the front edge of the parapet in all cases, neither preserves nor enhances the character and appearance of the Conservation Area. We ask that the applicant is required to provide a full set of elevations of Greater London House to show the real impact of this proposal. It is completely unacceptable for these reasons.</p>
