2020/1667/P	<div>Chairman Elsworthy Residents Association Member of BCAAC</div>	23/06/2020 09:09:29	OBJ	<p>This application comes a week after 2020/1667/P for the same address.</p> <p>Both applications are to create new basement bedroom accommodation in the same Willett house. William Willett, who spent his fortune from selling his luxury developments, on his campaign for Daylight Saving, who designed this and the rest of the houses in the Elsworthy CA without any basement accommodation because he no longer wanted people to live or work below ground level. Basements were fit for boilers and wine.</p> <p>Along with the pool, cinema etc this house has already created one bedroom and bathroom below ground. There is an application to convert part of the gym to another (1667) and now the car lift is proposed for a playroom and bathroom.</p> <p>In order to uphold William Willett's original ideals for his original garden suburb I object!</p>
