Deliveroo Editions Swiss Cottage – Site Monitoring Proforma

Form 2: Monitoring the impact of the operation on the surrounding area

Date:

Time:

Names:

Location Plan

Location 1 – Outside Cresta House Car Park

Location 2 – Outside No.6 Dobson Close

Location 3 – Lower Car Park, Dobson Close

Location 4 – Higher Car Park, Dobson Close

Location 1 – Outside Cresta House Car Park**Is noise audible from the Editions site?**Yes ☐No ☐

If yes, provide details:

Time and duration of the incident:

Source of the noise:

Voices ☐Air-con unit ☐Other (please specify) ☐

Any other defining characteristics:

Any other comments:

Are cooking odours present?Yes ☐No ☐

If yes, provide details:

Time and duration of the incident:

What is the source?

Description of the odours (e.g. type of smell):

Strength of odour (e.g. slight/very weak, slight/weak, distinct, strong, very strong, extremely strong) – see table 1 for details

Wind direction recorded on-site (use map for reference):

Any other comments:

Are Riders visible / waiting nearby?Yes ☐No ☐

If yes, provide details:

Time and duration:

Number of Riders

Any other comments:

Any other observations in relation to the Editions site?Yes ☐No ☐

If yes, provide details:

Time and duration of the incident:

Details:

Table 1: Odour intensity table

Table 14: VDI 3940³³ Odour intensity scale

Odour Strength	Intensity Level	Comments
No odour/not perceptible	0	No odour when compared to the clean site
<i>The Odour Detection Threshold (ODT) of $1 \text{ ou}_\text{e} \cdot \text{m}^{-3}$ is somewhere between 0 and 1</i>		
Slight/very weak	1	There is probably some doubt as to whether the odour is actually present
Slight/weak	2	The odour is present but cannot be described using precise words or terms
Distinct	3	The odour character is barely recognisable
<i>VDI 3940 says that the recognition threshold intensity is generally 3-10 times higher than the ODT (i.e. $3\text{-}10 \text{ ou}_\text{e} \cdot \text{m}^{-3}$)</i>		
Strong	4	The odour character is easily recognisable
Very strong	5	The odour is offensive. Exposure to this level would be considered undesirable
Extremely strong	6	The odour is offensive. An instinctive reaction would be to mitigate against further exposure
