Air Conditioning

MXZ-F R32 Inverter Heat Pump (3.3-8.0kW) Multi-Split Units Making a World of Difference

Multi-Splits

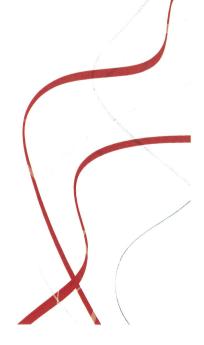

The R32 Multi-Split system allows up to four M Series or Mr Slim wall mounted, cassette, ducted or ceiling suspended indoor units of different capacities to be operated from a single outdoor unit. This makes it an economic and efficient answer for multi-room applications, whilst also offering space saving benefits.

Key Features

- Up to four indoor units may be connected to a single outdoor unit
- Energy saving inverter controlled outdoor unit adjusts compressor performance to economically match the demand for heating and cooling
- Units may be added within the capacity of the system as requirements change
- Capacities of indoor units may be mixed to suit individual rooms
