2020/1808/P	[REDACTED]	28/06/2020 19:52:14	COMMENT	[REDACTED] I would like to register a comment as the plans should take into account the impact on the neighbouring properties who look over this property. At the moment the view is very undisturbing and there are a lot of trees. I would not want h this build to affect that. This is a comment and I would be grateful if it could be addressed.
2020/1808/P	[REDACTED]	28/06/2020 12:31:38	OBJ	[REDACTED] and the private garden backs on to the car park. We cannot see from the plans how our privacy may be compromised, if at all, by this two story extension and therefore would like to speak to someone before a decision is made. We are marking this as an objection as we do not know how else to mark it at this time so that someone from the council can can come and see the view of the property from our garden and perhaps other flats in [REDACTED]. As you can imagine our private garden is a great asset to our home. While we are more than happy to have a conversation to understand more and provide photographs from our garden and home as to what we can see now To be able to compare - would someone please contact us so they can visit or we can understand more if we will and how we would be impacted, if at all? Currently the whole of [REDACTED] looks out directly on to this building and the higher up, the more people can see This is only a request for more information as everyone wants to extend and build on and in their private land and gardens and that should be encouraged if it has no direct impact on others. Thank you
