2020/1581/P		06/07/2020 23:27:54	COMMENT	<p>Do not object to Pergola but no indication of how extra fencing will be erected? Needs clarification and an image.</p> <p>However the site plan P_O1 is inaccurate The red boundary line that shows the footprint of The House includes an alleyway at the back between it and the Bulk Rubbish Area. This alleyway accesses a rear room at back of the Bulk Rubbish Area, for the caretakers and had it been built as intended, for their trolleys. This alleyway is part of the Lissenden Estate and does not belong to the House. It is clearly marked on the plan, a white strip (at back of The House) that opens out into the space of our communal garden and vegetable raised beds. The PLAN P_O1 needs to be redrawn.</p>
2020/1581/P		03/07/2020 16:04:36	NOBJ	<p>I have been instructed to ask that the communal garden (situated between The House and 91-100 Parliament Hill Mansions) would not be used for the delivery or storage of building materials or for any building or construction work.</p> <p>Our only other concerns are administrative, regarding the Site Plan P_O1, which appears to show the alleyway behind the House as part of that property, whereas it is, we understand, the property of the London Borough of Camden thereby giving no rights to The House; and the Location Plan which is considerably out of date, showing The Cottage which previously stood at that location.</p>
