Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You must secure the approval of the Council's Noise and Licensing Enforcement Team prior to undertaking such activities outside these hours.

- 5 Reason for granting listed building consent: 85 Belsize Lane forms part of a group of 8 Grade II listed houses, dating from the mid-19th Century and situated in the Belsize Park Conservation Area. The application seeks to replace modern doors and windows on a 1980s extension to the building and replace an original window which has been shown to be beyond repair and which does not contain historic glass. Following negotiation, the application was amended to incorporate a single glazed window on the main building. Detailed section drawings of all the new fenestration has been submitted showing appropriate detailing, including integral glazing bars with a slimline profile. The proposed works will not harm the special interest of the grade-II-listed building.

The application has been advertised in the press and by means of a site notice, whereby there were no consultation responses. The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2019.
