2020/3008/P	Christopher Legge	22/07/2020 09:36:49	OBJ	We strongly object to this proposal. The number of heavy equipment pieces, aerials and bulky gear which would be visible on the skyline for a considerable distance is both unacceptable and excessive. The building is adjacent to a conservation area and would have a considerable impact on the visual amenity. Furthermore the effect of this concentration of energy would be a health hazard to both residents and the local School nearby. There are other technology ways that would avoid such permanent damage to the environment that this proposal would cause.
