2019/5010/P	Bartholomew Estate and Kentish Town CC	23/07/2020 11:38:09	JUST	We consider that the new out house requested is too big and will encroach on the garden reducing green space. Also it is very close to a garden tree which could be potentially damaged during any tree replacement. It is also considerably higher than the current shed and will reduce light to the garden and reduce the view of greenery. We consider this the same as a conservatory which are not permitted at a high level (BE 23) . Also the size makes it possible to be habitable and we do not believe the Council will be blue to check this iss not not done. We are happy for a shed of the same dimensions as the current ones to replace the current one , and feel if an increase size one is permitted it will et a precedent for future development lçd garden rooms .
