2020/2471/P	The Heath & Hampstead Society	30/07/2020 16:47:08	OBJ	<p>Objection From: THE HEATH & HAMPSEAD SOCIETY</p> <p>This is another proposal to increase the paving, and reduce the planted area of a front garden. The clear intention is to increase the number of cars that can be parked in the front garden - changing it to a car park and not only reducing the bio-diversity of the area but spoiling the essential character of the Conservation Area.</p> <p>Camden`s Local Plan explicitly states, for very good, generally accepted reasons, that it aims to limit and reduce parking in all developments.</p> <p>This is an one of many applications of this type - some roads are beginning to be lined by car-parks instead of gardens - totally changing for the worse the character of the Conservation Area.</p> <p>Please refuse this and all future applications of this type.</p>
