Canal & River Trust
The waterway network of England and Wales

Fancy a penny lick?

The year is 1825 and the young boy, Charles, has just had a penny lick.

The local authorities are trying to control the price of the penny lick.

How can you help? By using the Penny Lick of London. Charles used the penny lick to get his penny lick. Now it's your turn to get your penny lick. It's a penny lick, it's a penny lick, it's a penny lick.

Join the Canal & River Trust. We make the waterway network of England and Wales a better place to be. We make the waterway network of England and Wales a better place to be. We make the waterway network of England and Wales a better place to be.
