Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You must secure the approval of the Council's Noise and Licensing Enforcement Team prior to undertaking such activities outside these hours.

- 6 Reasons for granting listed building consent: 111 Gower Street forms part of a group of Grade II listed late 18th Century rendered and stuccoed terraced houses, deemed to make a positive contribution to the Bloomsbury Conservation Area. This conservation area covers approximately 160 hectares and is widely considered to be an internationally significant example of town planning, noted for its formally planned arrangement of streets and contrasting leafy squares. The application seeks to replace modern fire doors with a different design of fire door, the justification for which is clearly set out within the application documents. The proposed works will not harm the special interest of the grade-II-listed building.

Public consultation was not necessary for this application as the works are internal and relate to a Grade II listed building. The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2019.
