Subject: DPCAAC tree applications 11/08/20

Dear tree officers and planners,

List 592

2020/3163/T. 18 Dartmouth Park Road

No objection to selective crown reduction by 1-2m of the hazel tree, with crown thinning by 20%.

2020/3170/T. 16 Dartmouth Park Avenue

No objection to the crown reduction by 1-2m of the two copper beech trees.

2020/3188/T. 3 Holly Village

I do not object to the felling of this distorted Ash tree (T1) in the drying area, as two branches have already snapped off, and other ash trees are nearby.

I do not object to the removal of 3m of two limbs of Plane tree (T2) which overhang the neighbouring garden, in the garage area.

2020/3288/T. 25 St Alban's Road

I have tried by letter to contact the two sisters and ask why they want to fell the Holly and Elder trees, also the buddleia and forsythia bushes. If a tree officer is able to visit the rear garden, then he will be able to decide, and be more informed than me, after seeing the applicants and their reasons.

Thank you and stay safe,
Eileen Willmott
