2020/3115/P	Lucy Sanderse	11/08/2020 12:16:49	OBJ	<p>I wish to object to this planning request, a repeat request of reference 2019/4341/P submitted last year.</p> <p>The objections remain as per the 2019 application, even with the revision of the plans the increased height of the Mansard Roof Extension will continue to have a dramatic impact on the loss of light to our property, it impair the view we have from the upper floors, and we will have the view of the roof rather than the skyline, and it will impact directly on our privacy. Its is unclear from the elevations where the dormer window will be placed.</p> <p>We live directly opposite 15 New End, and the street is already dark due to the tall buildings, any further height added to this end of terrance property would have a huge impact to the light.</p> <p>Raising the building by one storey would ignore the established roof line of the existing terrace facing New End and would disrupt the streetscape, It would also be out of character with the rest of the terraced houses on that side of the road.</p>

2020/3115/P	The Heath & Hampstead Society	25/08/2020 16:26:46	OBJ	<p>OBJECTION</p> <p>From: THE HEATH & HAMPSTEAD SOCIETY</p> <p>We objected to the previous application to form an extra floor on top of a prominent corner terrace house. This application is even less acceptable.</p> <p>No.15 New End is part of an unspoilt line of Victorian terrace houses and forms a prominent corner in this part of the Conservation Area.</p> <p>The attempt to hide the awkward change of roof level from the unspoilt Victorian slate roof to a mansard by the tall chimney is unsuccessful. The proposed front elevation does not make clear that a vertical triangle of roof is needed to fill the gap between the existing lower roof and the much higher proposed mansard roof.</p> <p>This tortured shaped roof is alien to the Conservation Area and detracts from it.</p> <p>PLEASE REFUSE</p>
