2020/3510/T	S. Nix	07/08/2020 09:51:25	COMMNT	Hello,

I would like to know the reason why these trees are being felled. As far as I can see, there are no supporting documents giving a reason for this, and no reason is listed on the application.

As the area in question is a conservation area, doesn't such information always have to be provided?

The 'Untitled drawing (4).pdf', which is not a drawing but a photograph, shows 2 trees. Is this photo accurate (specifically re the tree described as a 'Bay' tree)? Does the '(4)' after 'Untitled drawing' indicate there are 4 pages in that file? I only find one page.

There is not enough information in this application to explain or justify why the trees are being felled. If the reason is because they have grown too much, why is felling the solution? Can they not be pruned appropriately?

Thank you.
