2020/2936/P	barbara brown	27/08/2020 11:27:18	APP	<p>I would like to protest against the plan to erect a unit of 7 flats at 23 Ravenshaw Sreet. The street is well known for its community activity, and we all interact well with each other. This has been proven during the covid epidemic. The insertion of 7 dwelling units on a small piece of ground is out of balance and out of character to this street.</p> <p>There is also a considerable disruption from the insertion of a basement. This street, on a hill and known for its poor soil quality, is vulnerable to subsidence. No other houses have basements. There could well be considerable damage to surrounding properties should this wholly unsuitable basement-procedure be followed.</p> <p>The entire building would be out of character in the street and the building procedure would incur appalling disruption in a narrow street adjacent to a school. We would welcome the site being used in proportion to the rest of the street. We would welcome a family house as existed before. We are a welcoming and supportive neighbourhood. But not to projects of this nature which distort and disrupt our street in the interests of profit rather than community benefit.</p> <p>A further thought: parking is at a premium in this street. Where will (at least) 7 extra vehicles be parked?</p>
