2020/3419/P	Julian Furman	02/09/2020 17:16:20	OBJ	The planning application shows the master bedroom of the neighbouring property (Studio House, 5A Templewood Avenue) in its current position and does not take into account the future approved extension. Having the bins so close to our new master-bedroom window will directly impact our amenity and potentially our health. We suggest that the bins and bin-stores are located on the other side of the property.
