2020/3939/T	G Power	02/09/2020 10:38:59	COMMNT	What a shame! Ash is a native tree, and therefore is good for local biodiversity. We live in a conservation area. Trees capture carbon and increase our wellbeing, and make city living bearable. Often they are taken down as people fear for foundations but in this area the problem is the foundations, or lack of proper foundations, themselves.
