| 2020/3249/P | Kumiko Matsuoka | 09/09/2020 16:36:42 | OBJ | I should like to object to this plan because the area ("the triangle") is currently well preserved and getting this application approved may set a precedent for many other properties seeking to do the same. Once a solid structure such as this is built, there could be a temptation for the level above to want a terrace, and if similar extensions were to follow in the neighbourhood, the outlook from the shared garden area could potentially be far less open and green, raising serious questions about what a "conservation area" was supposed to mean. |
