

This architectural floor plan depicts a complex building layout. The central structure features a large, dark-shaded rectangular area, possibly a roof or a large hall, with several smaller rectangular rooms and corridors branching off. To the left, there is a large, light-colored rectangular area, likely an outdoor space or a large room. To the right, a smaller, dark-shaded rectangular area contains a large window with a grid pattern. The plan includes numerous small details such as doors, windows, and furniture, all rendered in a clean, technical style. A red line outlines the main building footprint, while a dashed line indicates a secondary boundary or area. The overall design is functional and detailed, typical of professional architectural drawings.
