2020/3383/P	Robert Livock	15/09/2020 20:03:52	SUPPRT	I support this application in providing much needed new housing and investment in this part of Kentish Town Road as it will complement the redevelopment of the Carpet Shop and Pizza Express as a gateway to the high street from the south. The street is far too tatty and needs cleaning up. The roof extension is modest, sympathetic and adds variety to the skyline. The building is not listed nor in a Conservation Area and the extension preserves neighbouring amenity so there is no reason why this building should be limited to the height of its neighbours.
