Hi,

 I understand that after the extensive work and disruption of the other part of this project — plans are commencing to continue causing inconvenience to residents of Chester Gate. I understand they wish 1-2 Chester Gate to be converted from residential to office use contrary to the original consent. The original project contemplated the residential character of Chester Gate. This will increase traffic at a time when the width of the road has already been reduced against the residents' wishes to service the desires of the other part of this project. It now makes no sense to increase traffic by converting to office usage. It has been several years of disruption already. To the extent any work goes on it much not cause disruption to the other residents.

Regards,
