**Application for 10 Park Village West.**

[REDACTED] my garden adjoins directly the garden of 10 PVW. Many thanks for consulting me on this application.

I have no objections to the work proposed.

Please note that the principal rooms in the houses and flats in Park Village East do not face into the road but instead SW across to Park Village West, over the now filled-in Regent's Canal collateral cut, so this view is very important to us.

I note that there is no work currently intended to the very large plane trees numbers T88-T92. The plane T92 is described in the survey as 'assymetrical'. This includes a long limb extending SE over a corner of Nash House garden and then over my garden which has thick foliage and is making the tree unbalanced. At a future point I would be in favour of the removal of this limb.
