INTERIOR, ARCHITECTURAL DESIGN & MANAGEMENT

1.0 INTRODUCTION

1.1 Background

This Design, Access Statement had been prepared by Lucinda Sanford Design Limited on behalf of our client to seek approval for Listed Building Consent - Rearrangement of the proposed kitchen and laundry location

2.0 LOCATION & SETTING

2.1 The property is a Grade I Listed Building family dwelling house, located in the London Borough of Camden in the Regent's Park Conservation Area. The house is located to the east side of Regent's Park set back from the Outer Circle and separated from it by a garden space. Chester Terrace is privately owned by the Crown Estate. The property backs onto Chester Close North. The Lower Ground Floor integral garage converted to a storage within the house takes direct access off Chester Close North.

2.2 The house underwent significant alteration between 1959 and 1964 comprising of the wholesale reconstruction of the building behind a retained facade.

3.0 USE

3.1 The property is a five-storey terrace single family residential dwelling.

3.2 The internal gross area of the property remains unaltered.

4.0 LISTED BUILDING CONSENT

The application for Listed Building Consent seeks approval for:

Installation of replacement flues and 1 no of extract louvre at Rear

5.0 EXISTING LAYOUT

5.1 The internal fabric of the house dated from the early 1960s and the current fittings and finishes are characteristic of changes made at that time and in the subsequent period.

INTERIOR, ARCHITECTURAL DESIGN & MANAGEMENT

Chester Terrace no.18 - Rear elevation with existing flues.

Chester Terrace no.13 - on the left with boiler flues.

6.0 PROPOSED PLANS.

Lower Ground Floor plan

Rear Elevation

7.0 THE DESIGN APPROACH

The applicant's proposal is for:

I. Installation of replacement flues and 1 no of extract louvre at Rear.

a) 1 no of New 350x200 Kitchen Extract Louvre (or equivalent cross sectional area).

b) 2 no of 125/80 Boiler Flues extended to rear facade as per the Section A-A and B-B. Ideal Evomax Horizontal Standard Flue Kit 80/125mm.

8.0 THE DESIGN APPROACH CONCLUSION

As stated in the Heritage impact assessment. The brickwork on the rear façade has been heavily patched and the fenestration is not original. This fabric is therefore deemed to be of low value. The external changes are relatively minor and are confined to the front basement area and the lower levels of the rear façade. It is considered that the proposals will not harm the special interest of the listed building and its setting, nor will they have any adverse affect on the character and appearance of the Regent's Park Conservation Area.

9.0 SCALE

The proposals do not affect the scale or setting of the building in relation to other buildings in any way.

10.0 ACCESS

Pedestrian access to the property is from Chester Terrace. Vehicle access is from Chester Close North at the back of the property. No alterations are proposed to the existing access arrangements.
