2020/3461/P	Margaret Shanks	17/09/2020 11:20:41	COMMNT	<p>I object to the proposed Planning Application 2020/3461/P: Chester Road Hostel, 2 Chester Road London N19 5BP</p> <p>Subsequent to the demolition of the existing hostel, its replacement by three blocks ranging between three and four storeys in height is inappropriate, given the location within a conservation area. The visual impact will be negative and will not enhance the character of the adjacent streets. It will also be detrimental to the outlook from other buildings.</p> <p>While the Planning Application form states that the answer under 7. Materials Does the proposed development require any materials to be used externally? is No, the proposed External Façade Study and the Core Façade Study list such materials as two profiles of terracotta tiles coloured green, and perforated aluminium cladding and steel structure with anodised finish.</p> <p>The proposed Internal Façade Study indicates entrance doors to be painted pink [Finish: Painted RAL 030-70-20].</p> <p>Such materials and colours are inappropriate on three blocks, ranging in height between three and four storeys, located directly opposite red brick Victorian houses on Chester Road.</p>
