2020/3553/P	darren goldberg	21/09/2020 19:54:59	SUPPRT	<p>As someone who walks past this land daily on my route to work, i think it will be enormously beneficial to approve this application. It will enhance the area enormously. I am excited at the prospect of the land being used to its full potential, and creating so many great homes, including affordable housing which is so needed in the current climate.</p> <p>In addition, the applicant has offered to plant new trees which will great enhance the street. I also believe they have put a significant amount of thought and effort into all aspects of the application, which shows them to be serious about providing high quality accommodation.</p> <p>I fully support this application.</p>
