WASTE MANAGEMENT PLAN for 155 Drummond Street NW1.

Waste Management Plan to London Borough Camden policy CC5. Waste and recycling facilities to be provided on site within the basement area. The following is provided for each residential accommodation unit of 3-bedroom, or less, as follows:

- 120 litres of bin, box or sack volume for general waste or 'refuse'.
- 140 litres of mixed dry recycling.
- 23 litres of food waste.

Basement on-site provision for Waste Management Plan.

Residents access to bin store, via passenger lift, or staircase. The bins are moved up to ground level on collection days, by the building management team.
