2020/3478/P	m aarons	24/09/2020 12:33:28	COMMNT	<p>No comments regarding porch or bin storage.</p> <p>The new rear extension is designed to extend beyond the current line of building at 21 and beyond the line of the extension at 23. It is also higher than the top level of the extension at 23. Taken together this will make it look disproportionate. It will also enclose the space on the patio of 23 and will lead to slight loss of outlook. It should be of similar proportions to the extension at 23 to preserve amenity and aesthetic.</p> <p>(It should be further noted that in drawing PL110 - Rear elevation west - the boundary line drawn between the two semi detached properties appears not to be drawn down the middle. It is unclear if this is reflected in the lines of the proposed extension; if so, this would obviously raise serious objections).</p>
