

**Cover note**

This is an exact resubmission of granted planning permission 2017/5462/P (which remains extant), which itself was an exact resubmission of the granted planning permission 2014/7829/P. There have been no material changes of circumstance and these plans have twice been approved. This is simply a resubmission of the same plans and therefore it is asked that permission is given as before.
