2020/3553/P	Amy Crouch	30/09/2020 18:56:23	SUPPRT	Having lived in the area for several years I am very pleased to see such great plans to utilise this site which currently looks rather unloved. It's also very pleasing to see that that plans now also include London stock brick and planting additional trees along the street, as such I would like to register my full support.
2020/3553/P	Paul Keaveney	29/09/2020 13:46:45	SUPPRT	I have been renting locally for sometime whilst looking to buy in the area. It's apparent to me that there is a significant lack of high quality accommodation for owner occupiers. I would like to strongly support the proposed application as based on plans (which have evidently been very well considered) the development would perfect suit what I have been looking for. I believe regenerating unused and unsightly sites such as this one in order to create additional high quality family homes is exactly what the area needs and will benefit the local area and community. It's evident to me the proposed scheme is sympathetic to its surrounding and architecturally in keeping from a design perspective, a significant improvement from existing.
2020/3553/P	Josh	04/10/2020 21:18:02	COMMNT	I am in support of this carefully considered construction. It will improve the immediate area due to the architectural thought that has gone into this scheme and is gladly welcomed. I am particularly happy that applicant has offered to plant additional tree's enhancing the street's greenery.
