OCTOBER 2020

Gundry and Ducker Architects submitted a Pre-Application for the above property to Camden Council in March 2020 and feedback was received from the case officer in August. Following the feedback from the case officer, the design was amended to accommodate their recommendations. The officer's feedback has been included in the Heritage Statement along with our responses to how the design has been changed to suit. Additional appendices have been added to the end of the Heritage Statement to provide further evidence or additional information to support the application.
