< layouts refer to engineer's drawing

Proposed ceilings type:

Existing / Repaired Lathe and Plaster Ceiling Existing Acoustic Ceiling Existing Ceiling - Unknown Finish Existing Exposed Soffit Existing Fabric Ceiling n/a Out of Scope Proposed Acoustic Ceiling Proposed Exposed Painted Soffit Proposed Exposed Painted Soffit with Rafts Proposed Moisture Resistant Plasterboard Ceiling Proposed Plasterboard Proposed Plasterboard / Repair Original (TBC) Proposed Plasterboard with Rafts

Note:

- Drawing to be read in conjunction with 15 series • demolition RCPs
- Where repairs are noted this is a high level review of each • room using the AHR 'TrueView' model, further interrogations will be needed to be made relating to the removal of minor elements such as conduits, wiring, lighting etc as repairs will be required in these locations also
- Existing / Repaired Lathe and Plaster Ceiling where • applicable cornice to be repaired as shown and where necessary paint stripped back to cornice and repaired as noted in the specification Exposed original stair soffits to be repaired as necessary.
- For proposed stair soffit information refer to 24 series.

Relevant SKA Requirements (refer to NBS and Gordon Square (4620) SKA assessment (Design Stage) report:

- D20 responsibly sourced timber
- D22 low GWP insulation D29 - acoustic design in accordance with BB93 etc.
- M04 insulation
- M10 ceiling materials

Extent of area of acoustic absorption - refer to acoustician's report - raft areas to to be added to applicable areas and coordinated with lighting
