2020/4640/T	Councillor Leo Cassarani	10/10/2020 12:34:32	COMM	<p>As the ward councillor for Swiss Cottage I object to this in the strongest possible terms.</p> <p>The tree is tall, healthy and mature and makes a very significant contribution to the amenity of the area. It's one of the tallest trees, if not the tallest, on that section of the street. Mature London Plane trees are a "gift from the past" and it would be barbaric and counterproductive to remove them.</p> <p>We know that mature trees are capable of absorbing pollution, supporting the local ecosystem, and cooling down built-up areas as global temperatures increase.</p> <p>This tree should be safeguarded and managed by pollarding in the same way that many other trees in the areas are. If there are doubts as to who is responsible for this, then those doubts should be cleared up before any irreversible steps are taken.</p>
2020/4640/T	Jonathan Byatt	11/10/2020 14:41:08	SUPC	Can the applicant please detail the replacement strategy for the proposed tree removal. When mature trees are removed this causes a reduction in the available greenery and options to reduce carbon within Camden.
