Dear Sir/Madam,

Re: Discharge of condition 6 of planning permission 2019/4822/P

We write on behalf of our client, Mr B. Walford with an application to discharge Condition 6 of planning permission 2019/4822/P.

The condition states;

The development hereby approved shall not commence until such time as a suitably qualified chartered engineer with membership of the appropriate professional body has been appointed to inspect, approve and monitor the critical elements of both permanent and temporary basement construction works throughout their duration to ensure compliance with the design which has been checked and approved by a building control body. Details of the appointment and the appointee's responsibilities shall be submitted to and approved in writing by the local planning authority prior to the commencement of development. Any subsequent change or reappointment shall be confirmed forthwith for the duration of the construction works.

To support the condition, please find enclosed details of Structure Workshops' instruction and their role in the overseeing of the construction process. The document details their professional qualifications and confirms their instruction inline with the above condition.

This application has been submitted to the Planning Portal under reference PP-09168470 and the application fee paid online.

We trust you have sufficient information to validate this application and allocate it to an officer, if however you require further information, please don't hesitate to contact me.

Yours sincerely

Rachel White
Planner
