- 1 No. 86 Albert Street is an integral part of a terrace of similar early Victorian houses. The terrace, was listed Grade II in May 1974. Built in yellow stock brick with stucco detailing the houses are over three storeys with a basement and attic floor.

This scheme concerns proposals to stabilise and repair damage to No. 86 Albert Street which has suffered structural movement due to subsidence of the site.

The submitted documents set out an appropriate approach to the historic fabric thereby ensuring the architectural and historic significance of the building is preserved. It is considered that no harm will result from these repair and strengthening works and the application is therefore supported.

The site's planning history has been taken into account when making this decision.

No comments were received as a result of the public consultation through a press notice and a site notice.

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policies D1 and D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework.
