Hi Tony,

Here is the link to Mumford and Wood box sash windows; <http://www.mumfordwood.com/box-sash-windows/>

[Timber Box Sash Windows | Mumford & Wood](http://www.mumfordwood.com/box-sash-windows/)

Introduction. The modern day version of the classic Box Sash Window otherwise known as the double hung sliding sash. Our timber Box Sash Window uses cords, weights and pulleys to counter balance the sashes in the traditional way with the weights housed in a 'box' created by the internal and external liners over sailing the frame on each side.

I hope this meets your requirements,

Many thanks

Noelle
