2020/4981/T	G. Wilson	29/10/2020 15:13:04	OBJ	<p>yet another application to fell a mature, healthy tree with the reason given as 'poor vigour'. I beg your pardon but judging from the satellite image of the rear garden of 47 Crediton Hill - the Goat Willow is at the very far end of the garden and in good condition. What is the real reason for removing it? Can't Camden council act to protect these "private" trees on ecological and amenity grounds as it is vital in reducing pollution and sustaining the air quality in this congested area. There must be some balance in council policy decisions between private wishes and public good. Please do not grant this application.</p>
