2020/4606/P	Christopher Booth	03/11/2020 20:11:47	SUPPRT	<p>I think that this proposal will be a great addition to Camden and to Oakley Square. The elevation will be barely visible and will balance the building that is directly opposite on the other side of the square 'park'.</p> <p>The additional housing for the area will support local businesses and provide a few more residential homes in an area where there is currently a lot of need.</p> <p>The height is not a significant change from prior height and is in keeping with the new development nearby of the Koko.</p> <p>The stepped roof will provide a lovely draw from the road rather than the brutal style that it currently has. The step roofline will soften the building and provide a look similar to local pitched roofs.</p> <p>The improvements will add to the local vicinity and I would like to add my support for the proposals.</p>
