Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 Camden Town Hall is a grade II listed building. It was built during 1934-7 and is constructed on a steel frame with Portland Stone cladding. The building is set over three main storeys with a basement. The building's entrance is on Judd Street, however the building is most visible from Euston Road.

The building is currently being refurbished under consented applications with references 2019/2238/P and 2019/2257/L.

This application relates to some minor changes to the already consented schemes.

The changes affect the internal arrangement of the SME offices that are accessed via Bidborough Street. The internal doors of the access lobby from Bidborough Street are changed from revolving to sliding doors. This change will have no impact on the quality or usability of the space. In addition, the number of goods lifts running from ground to basement level is reduced from two to one. This will have no impact on historic fabric and will to some degree improve the plan form.

The proposed works will not harm the special interest of the grade-II-listed building.

The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.
