2020/3654/A	Sarah Tuckman	12/11/2020 10:45:37	OBJ	<p>At seven metres high on the roof of Spectrum House, this flagpole will be visible to south Glenhurst residents and also to people living in Chester Court and possibly also Lissenden. It is proposed for the south-west corner of the roof, will tower above the current roof and will be completely out of character with the Conservation Area. It will also stress the commercial nature of the building to the detriment of the surrounding residential properties. Its flag will be visible to all (Queens Enterprise Award which has been granted only to the occupiers of one of the many units in the building).</p>
