2020/4987/T	M green	18/11/2020 10:12:58	COMMNT	The trees have been a beautiful visual comfort for all of us in our rear gardens at heathdrive. neighbours are supportive of others looking after their gardens, we note that in this instance t construction works has interfered with high noise levels in our usually quiet enclave. it has had no regards for the public safety by putting their hoarding obstructing the pavement area. The construction has had no protection for any of the trees on site or on the street. We strongly object to felling of any trees proposed at 30 heathdrive. There should be more planting of trees rather than felling them. This construction shows no regards for safety !
