2020/4869/P	Jonathan Byatt	06/11/2020 08:58:51	COMMNT	<p>The Roundhouse is a cultural Gem and landmark building for Camden. As such, Camden should open the design of the substantial new building proposals to a wider public forum. Residence of Camden once the Roundhouse to get the additional facilities it deserves but also to enhance this architectural gem. There is a risk the proposed buildings are too mundane and do not add to the the vibrancy or distinctiveness of the science, being so close to another cultural gem where tourists and residents flock to Camden Market past this structure. Can a a an outreach be made via local press or Media to Camden residents for their suggestions based upon a template design a space Mark Coutts but for which designs are requested? Without this input, the risk is is the unique architecture of the Roundhouse itself being surrounded by why a plethora of square boxes and containers which do not preserve architectural significance of the site.</p>
