Details of the pre-application advice received

10.1 The residential conversion as submitted would create a substandard unit of accommodation that does not comply with the Council's policies regarding high quality homes. Given the circumstances of the site, there are various challenges to providing a good standard of residential accommodation and officers are concerned that the current proposals would provide insufficient sunlight/daylight and little privacy. Furthermore, the windows would abut a quiet rear courtyard with very little natural surveillance and so there are concerns about the safety and security of the proposed unit. Considering the proposal in front of us, we would not invite a planning application as it would not be supported. You are strongly encouraged to think about this area of the building in a more comprehensive way, remodelling the existing structure and incorporating landscaping, in order to provide a building that is capable of providing good quality C3 accommodation.

10.2 In land use terms, the proposed conversion of the rear of the retail unit to residential may be acceptable subject to a viability assessment to indicate if any reconfiguration of the internal space would need to preserve the viability of the remaining commercial use.

37. Authority Employee/Member

- (a) a member of staff**

It is an important principle of decision-making that the process is open and transparent.

☐ Yes ☒ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
