Tree works at Tercelet Terrace, Oak Hill Park, London, NW3 7LW

T1 Oak Lift to 3m. Remove lower right limb which overhangs number 5 as they have been complaining. This and deadwood the rest of the tree by 20%.

T2 Sycamore Reduce by 40%. It is showing decay at the base of the tree and its on the bank and they are worrying that it may fall over as they lost the Oak tree a month ago. The tree isn't in the greatest of health, we need to try and maintain it.

The limb to be removed is marked as above.
