Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 Reason for granting listed building consent:

Stanfield House forms part of a semi-detached pair of houses, now subdivided, dating from 1730 and situated in the Hampstead conservation area. The application relates to the curved steps and railings leading to the front of the house, seeking to replace the damaged verticals, and to install a handrail to match the profile and angle of the existing handrail on the opposite side of the external steps. The submitted details are satisfactory and the proposed verticals will be painted black and caulked in place with lead at coping level to match the existing. It is considered that the works will not adversely impact the setting of the listed building, as required by Local Plan Policy D2.

The proposed works will not harm the special interest of the Grade II*listed building.

The application has been advertised in the press and by means of a site notice, whereby there were no consultation responses. Historic England responded to the consultation authorising the Local Authority to determine the application as we see fit. The NPCU has stamped the letter. The site's planning history has been taken into account in making this decision. Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.
