2020/4570/P	norman boyack	02/12/2020 18:10:38	WREP	<p>Dear Ms. Meynell</p> <p>re application 2020/4750/P. 6 Lindfield Gardens.</p> <p>Others have objected more fully and with greater technical knowledge, and I fully concur with everything stated. I have lived opposite this property for almost 40 years and have witnessed its gradual erosion from a pleasant house with beautiful terraced front garden with trees to a mainly concrete frontage of no character at all. All at the hands of the present applicant. If Camden approves this application it will deteriorate further.</p> <p>As other objections have pointed out, trees cannot grow out of concrete - a fact that Camden seem to have not recognised in 2008 when tree planting was made a condition of granting permission but which the applicant subsequently ignored. I hope you will also be mindful of Camden's policies T1,T2, and CC4. and reject this application.</p>
2020/4570/P	Julian Gresvig	03/12/2020 12:48:49	OBJ	<p>As a resident living at Flat 3, no. 8 Lindfield Gardens, I would like to object to the planning application of no. 6 Lindfield Gardens regarding their proposed development project, on the following grounds:</p> <p>- The main entrance of all the apartments is on the side of the property, and is adjacent to 8 Lindfield Gardens. First, this arrangement will be out of character compared with other houses on the street and secondly it will dramatically increase the noise pollution for residents of no.8, including our flat and bedrooms. An entrance at the centre of the building facing the street is therefore much more appropriate and will cause much less disturbance- The increased noise level of having 8 extra residents next door - especially as the proposal is to include a communal roof terrace which will affect the privacy and tranquillity of the residents at no.8.</p> <p>- Considering the area (one of the most affluent in London), we seriously doubt that these 8 new accommodations will genuinely be "affordable" housing. It seems that this specific qualification has purposely been chosen to convince Camden Council to agree to this over-proportioned and profit-driven development project.</p> <p>- Last but not least, we have not been consulted at all about the project, which shows that there never was any intention on their part to ensure that this project wasn't causing any major and legitimate inconvenience to their neighbours.</p>
